Enrique was successful in getting the AF to send the next EBR workplan as draft final instead of final. I sat in as a silent observer. It was a difficult call and took an hour just to get Dr. TerMaath to agree to send the report as draft. We will need to really focus on performance measures/EBR evaluation criteria and contingency ideas should it look like it isn't working.

Any word from Enrique about how his conversation with Dr TerMaath went? Can we send this out now?

Remember we discussed that I don't want to send that letter until after Enrique talks with TerMaath. After I get a debrief from Enrique we'll know what the next step is.

Are you ok with the model transmittal cover letter so Wayne can sign it and we can send out tomorrow?

FYI – I am waiting your and Loren's OK on EPA's Final cover letter to USAF Dr. Termaath version – if you need my ADEQ signature.

Also I cannot open the .docx WORD attachments sent from your email yesterday and today. They seem to have a double .docx .docx suffix.

Thanks.
